

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Downloadthat

App URL: <https://play.google.com/store/apps/details?id=de.classydl.app>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to conduct thorough evaluations and obtain professional feedback on DownloadThat. Additionally, we reached out to our target users, content creators and media enthusiasts, to gather real-world insights from the intended audience.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers actively engaged with DownloadThat, providing valuable feedback on usability, features, and overall experience. Their insights led to crucial

adjustments, such as improved onboarding processes and enhanced visibility of app features, resulting in higher user satisfaction.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for ASO optimization, a user-friendly walkthrough, improved screenshots, a "Rate Your App" feature, and a dedicated support section. Feedback was collected through surveys, direct communication, and usability testing sessions.

5) Who is the intended audience for your app?

DownloadThat is designed for individuals who need to save legally permitted video, audio, and images. It caters to content creators, educators, and anyone seeking an efficient tool for managing downloadable media while respecting copyright laws.

6) Describe how your app provides value to the users.

DownloadThat enables users to save video and audio content effortlessly, offering quality options up to 4K. With features like multiple link downloads,

a progress bar, and direct file sharing, it streamlines the media acquisition process while ensuring compliance with legal standards.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

We enhanced DownloadThat by optimizing the app description for ASO, adding a dynamic onboarding walkthrough, improving app screenshots to highlight features, and implementing a "Rate Your App" button, significantly enhancing user experience and engagement.

9) How did you decide that your app is ready for production?

After extensive testing and incorporating user feedback, we resolved critical issues, optimized features, and ensured a seamless user experience.

DownloadThat is stable, user-friendly, and fully compliant, making it ready for successful launch on Google Play.

10) What did you do differently this time?

This time, we prioritized user feedback to refine the app's functionality, improved onboarding experiences, and implemented strategies for better visibility and engagement. These enhancements resulted in a more polished app ready for production access.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
